PROFILE SUMMARY

UI/UX and web designer with a multidisciplinary background in digital design, SEO, and business operations. Skilled at translating business requirements into intuitive digital experiences, creating visually engaging interfaces, and improving user journeys through thoughtful design and usability testing. Combines creative problem-solving with analytical thinking, strong execution, and cross-functional collaboration to deliver purposeful, user-focused digital solutions.

EXPERIENCE

Recent

FREELANCE UI/UX DESIGNER

Independent client projects

AADITHYA SECURITY SYSTEMS Link ↗

- Architected a brand-centric digital experience, turning security values into visual storytelling and intuitive navigation.
- Built a product discovery interface for 147 products across 12 categories, with specifications, media, variants and related products.
- Crafted a premium, sci-fi-inspired intro using cinematic motion and security-driven visual cues.
- Designed responsive UI with brand showcases, enquiry workflows, new arrivals and editorial content.

E-COMMERCE STOREFRONT CONCEPT Link ↗

- Reimagined the standard storefront with reels and new-arrival promotions woven into the shopping journey.
- Designed distinctive visuals that adapt to delivery type and distance; the client approved the unique concept, UI and tracking.

2026

ADMIN MANAGER

First Welding Certification Pvt. Ltd.

- Owned the redesign of the company landing page in Figma, covering layout, visual hierarchy, content flow and brand presentation.
- Drafted and rolled out multiple company policies and documents, including NDAs, appointment letters and joining letters.
- Introduced interactive work initiatives that strengthened team collaboration and growth.
- Led SEO, digital marketing, and content strategy, increasing organic traffic by approximately 40% and doubling search impressions within four months.

2025 – 2026

JR. EXECUTIVE

Layam Group

- Supported the CEO, coordinating 25+ weekly meetings and task execution for a 10-member team.
- Managed procurement across 30+ vendors: 50+ purchase orders monthly, 200+ inventory items, 98% invoice accuracy.
- Streamlined workflows across five departments, cutting internal request turnaround by approximately 25%.

2025

PEOPLE OPERATIONS INTERN

Wisflux Tech Labs

- Evaluated UI/UX across six websites and products, documenting 80+ issues, 90% resolved before release.
- Designed 25+ social media creatives, lifting engagement by approximately 30%.
- Improved onboarding through three initiatives, cutting onboarding time by approximately 20% for 10+ new hires.
